

All about angles: Logo angles

For each logo below, sketch the element that is rotated, find the order of symmetry and the angle of rotation.

1. The element is:

The order of rotational symmetry is:

The angle of rotation is:

2. The element is:

The order of rotational symmetry is:

The angle of rotation is:

3. The element is:

The order of rotational symmetry is:

The angle of rotation is:

4. The element is:

The order of rotational symmetry is:

The angle of rotation is:
