1. Here is Mr O'Reilly's order for his family:

3 fillets with chips
 5 fish cakes
 2 crab sticks
 3 hash browns
 2 waffle dogs
 1 spicy wedges
 2 large coleslaws
 6 dim sims
 3 sachets of tomato sauce
 1 garlic bread

- a. What is the cost of the meal for the family?
 b. What will the change be from \$60?

2. Paddy is buying 5 hash browns, 5 chickenburgers, and 18 dim sims. What will that cost?

3. How many dim sims could Sandra buy for \$6.30?
 4. How many scoops of chips could Bridget buy for \$15? What would the change be?
 5. Last month, \$52.50 was spent at the Fine Seafood Restaurant on fishburgers. How many fishburgers were bought?
 6. Simon spent \$35.50 on chips and waffle dogs for 5 people. He ordered 5 scoops of chips. How many waffle dogs did he order?
 7. On Tuesday night, there is a 5 for \$4.00 special on fishcakes. How much does each fishcake cost?
 8. How much change from \$40 would you get if you ordered 6 maxiburgers?
 9. What could you buy for exactly \$10?
