

# Room with a View

- You need**
- 1 centimetre square dot paper
  - rulers
  - a speaker telephone (optional)
  - e-mail access (optional)

## Activity

Room 5 at White Beach School had a teleconference with the students from Riuroa School. The students from Riuroa School told Room 5 about the size of their classroom and where things were in their classroom. When the teleconference was over, each student in Room 5 drew a scale map of what they thought the Riuroa School classroom looked like. Here is Alice's map of the Riuroa School classroom:

The Room 5 teacher sent the students' maps to Riuroa School to find out whose scale map looked most like the real classroom.

Contact a class from another school and try to draw some scale maps of their classroom from the descriptions the students give you.
