

1. State your **area of interest**.
2. Make **2-3 statements regarding what you think you might find out about your chosen topic**.
3. Identify **3-5 different data displays** to support your story about their area of interest.
4. **Copy the data displays into your presentation**. Include **proper referencing** of where the display came from.
5. Give a **description of what the data shows** for each data display.

Reference:

Description:

6. Write a **concluding discussion** on how the displays tell a story about the area of interest. Discuss how these are similar or different to your initial thoughts (in 2.).
