

A card game for 2 players

Equipment

- 2 packs of playing cards with picture cards removed.
- Game board with spinner in centre.

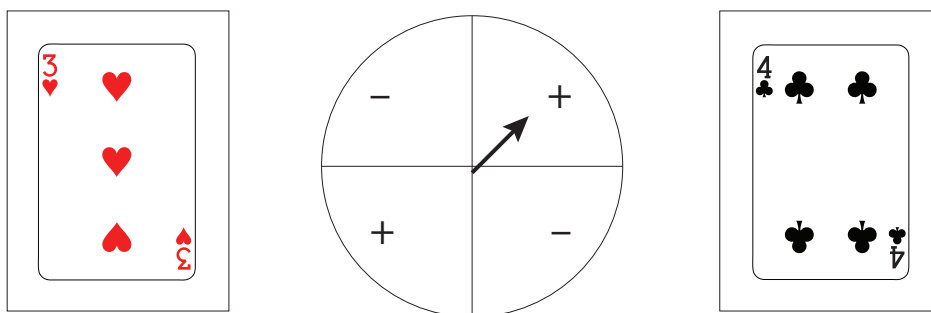

Instructions

1. Shuffle each deck of cards and place them face down on the gameboard as shown:

2. One player spins the spinner in the centre of the game board, and then each player turns the top card on the deck closest to them over.
3. The first person to correctly answer the equation wins the cards. Red cards represent negative integers and black cards represent positive integers.

For example:

$$-3) + +4 = +1$$

The person with the most cards at the end of the game wins.
