

Point to the strip that has one quarter shaded.

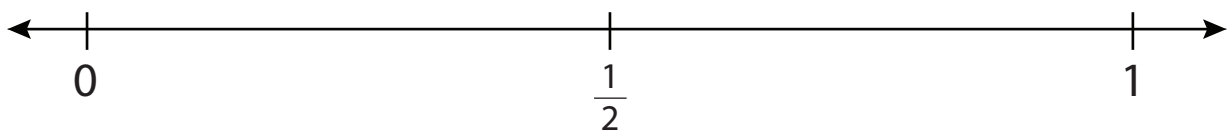

Match these cards. Each fraction has number, word, and picture cards.

Take three strips of paper.  
 Fold one strip into quarters.  
 Fold the second strip into eighths.  
 Fold the last strip into thirds.

Which of these strips has three fifths shaded? Explain why you chose that strip.

Here is a number line showing zero, one, and one half.

Write these fractions in the correct places.

One quarter

Three quarters

One third

Seven eighths

Explain why you put the fractions in the places you did.

Photocopy the page and cut into cards.

$$\frac{1}{2}$$

$$\frac{1}{4}$$

$$\frac{1}{3}$$

$$\frac{1}{5}$$

One half

One quarter

One third

One fifth
