

1. Please tell me the name of each shape.

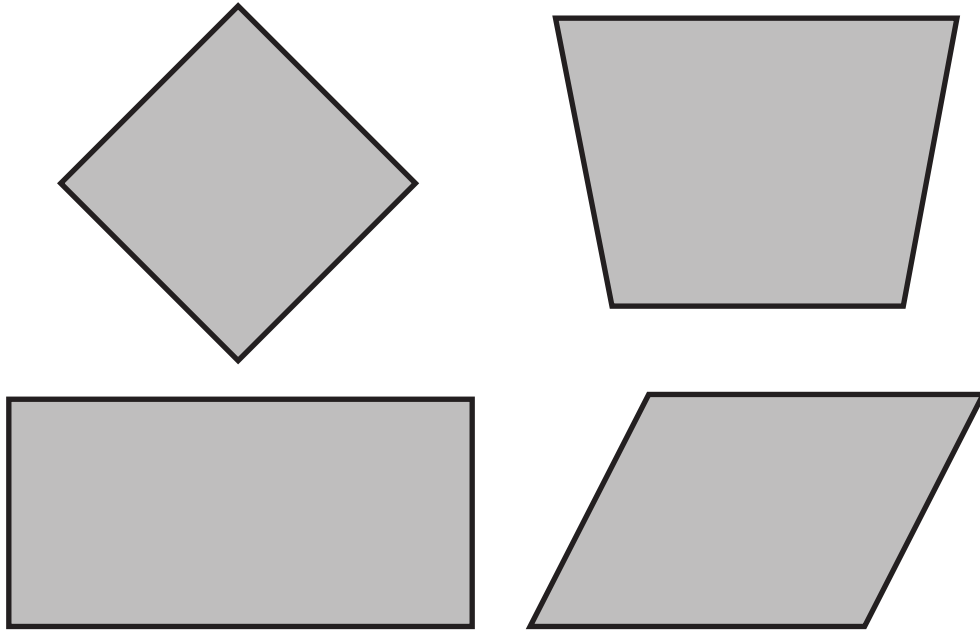

2. Find the triangles in this picture.

3. Sort these shapes so that the shapes that are the same are in the same set (group).

4. How are all these shapes the same?  
What differences can you see among these shapes?

5. Someone put shapes that are the same into these two rings.  
What is the same about the shapes in each ring?  
There are three more shapes to sort.  
Which ring does each shape belong in?
