

Will he? Won't he?

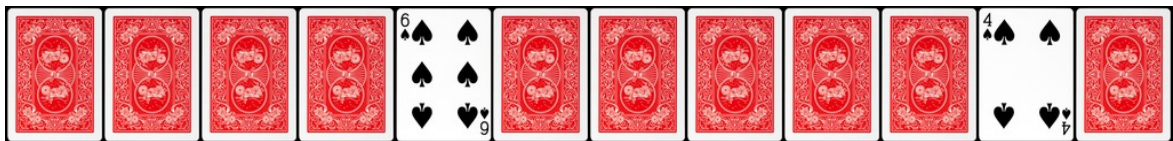

Maddie and Max are playing Memory Tens. Here are their cards.

They've turned them over like this and mixed them up.

They are taking turns to turn over two cards. If the pair adds to ten, the person keeps them. Maddie goes first. She turns these cards over.

Max says, "Now I'm sure to get a pair that makes ten next."

Do you agree with Max? Say why or why not.
