

Aim Straight

You need ✓ 2 or 3 classmates ✓ a calculator (optional)
 ✓ 3 small stones or wheat bags ✓ chalk

- Hit green and score that number.
- Hit yellow and double the number.
- Hit orange and treble the number.

Activity One

Three friends are at the sticky-ball stall.

They each have three throws. These are their throws.

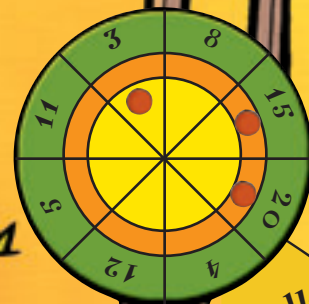

1. Who gets the highest score?
2. Everyone plays another round. They add together the scores from both rounds. Liam scores 174 points in total. What numbers does he hit in his second round?
3. Feana scored twice as many points in her second round as her first round. What numbers did she hit?

Activity Two

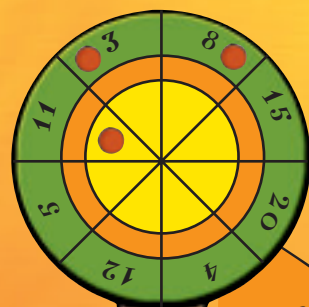

With your classmates, use chalk to copy the sticky-ball board onto the concrete outside.

Take turns to throw the stones or wheat bags, one at a time, onto the board.

1. Calculate your scores and ask your classmates to check your scores.
2. Who is the champion after three rounds?

Bella

Feana

Liam
