

Change in Thinking

You need toy money

Activity One

If you buy this drink with a \$2 coin,

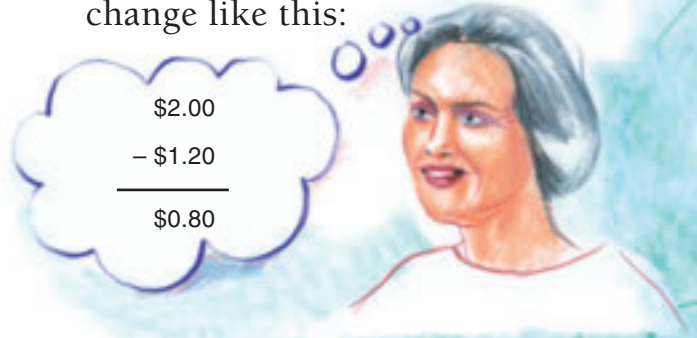

Mr Patel works out your change like this:

10c 20c 50c
 \$1.20 ... \$1.30 ... \$1.50 ... \$2.00
 $10c + 20c + 50c = 80c$

Mrs Grey works out your change like this:

\$2.00
 - \$1.20

 \$0.80

1. Which way would you use to work out the change you should get?
2. Why?

Activity Two

Work out the change for the things in this table:

Item	Money given	Change
 \$1.20	\$2	80c
 3 for \$2.70	\$4	?
 \$5.50	\$10	?
 \$3.55, 55c	\$5	?
 \$3.30	\$4	?
