

Dazzler Digs On

You need counters or cubes

Activity

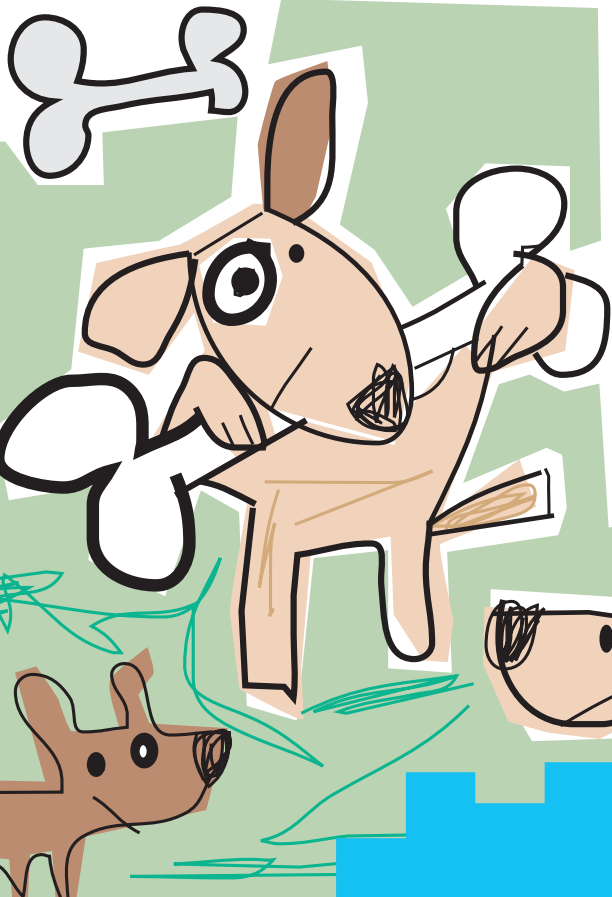

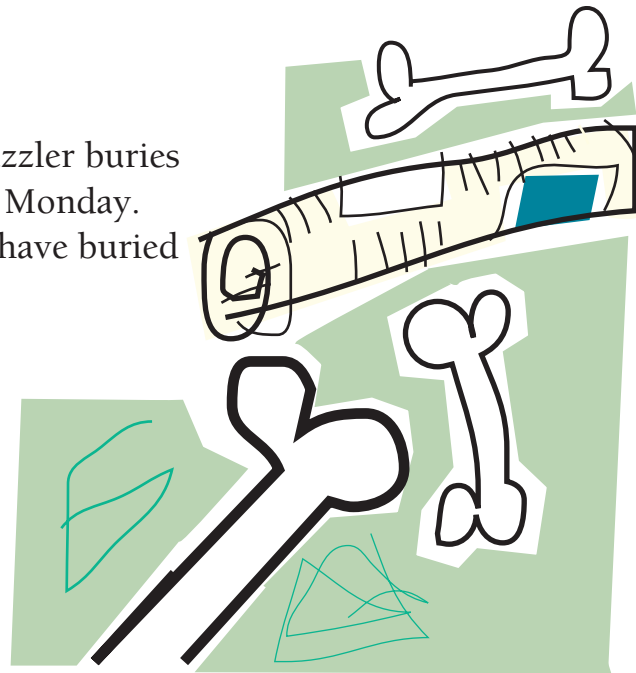

David's dog is called Dazzler.

Write number stories in your book to show how you work out the answers to the questions below.

- 1.** Each day for one week, Dazzler buries three bones. She starts on Monday. How many bones will she have buried by the end of Sunday?

- 2.** The following Monday, Dazzler digs up and eats one-third of her bones.
- How many bones does she dig up?
 - How many bones does she leave buried?

- 3.** On Tuesday, Dazzler digs up and eats half of the bones she has left.
- How many does she dig up?
 - How many does she leave buried?
- 4.** On Wednesday, Dazzler digs up enough bones from her supply to give each of her four puppies an equal number of bones.
- How many does each puppy get?
 - How many are left buried?
