

Kiwi Kai Problem 1

Two hungry kiwi, Keri and Kenny, went hunting for worms together.

They collected six worms altogether.

“Let’s have a feast,” said Keri

“How many worms will we get each?” asked Kenny.

Kiwi Kai Problem 2

Two hungry kiwi, Keri and Kenny, went hunting for worms together.

They collected twelve worms altogether.

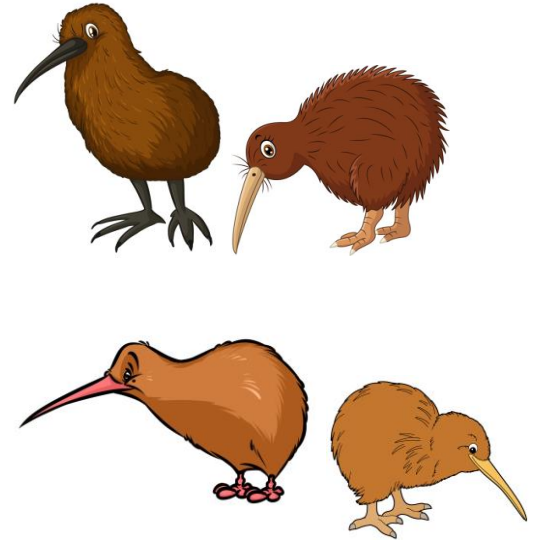

“Let’s have a feast,” said Keri

“How many worms will we get each?” asked Kenny.

Kiwi Kai Problem 3

Four hungry kiwi, Keri, Kenny, Karla and Kahu, went hunting for worms together.

They collected twelve worms altogether.

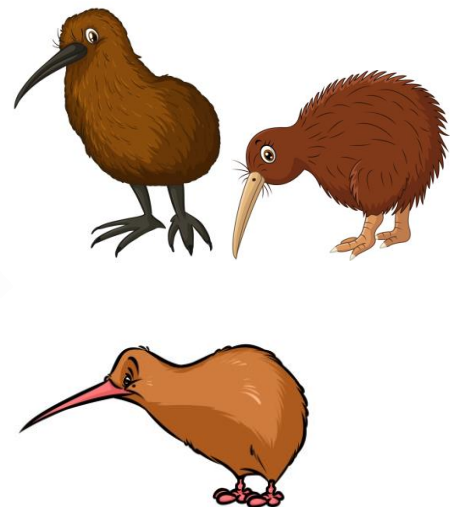

“Let’s have a feast,” said Kahu

“How many worms will we get each?” asked Karla.

Kiwi Kai Problem 4

Three hungry kiwi, Keri, Kenny, and Kahu, went hunting for worms together.

They collected twelve worms altogether.

“Let’s have a feast,” said Kahu

“How many worms will we get each?” asked Keri.
