# Loopy

You need ☑ a classmate
☑ a set of Loopy cards (from your teacher)

Game

Spread out the Loopy cards face up on the table between you and your classmate.

The person who starts picks up a card from the table and reads out what is written at the bottom of the card.

100

2 × 9

The first person to see the right answer on the top half of a card and call out that answer wins a point.

18

3 × 7

That person picks up that card and reads out what is written at the bottom of the card.

Then the race is on to find the next card with the correct answer on it. Keep each card you find in a pile by your side.

The Loopy game ends when all the Loopy cards are used up.

The person with the most Loopy cards in their pile wins.
