

## Suggested Kī-o-Rahi 'field' layout

The dimensions of a Kī-o-Rahi field vary depending on the number of players, the age and fitness of the players and the version of the rules being used. The diagram below is a scale diagram of a suggested layout for a Kī-o-Rahi field that would could be marked out on a standard netball court with chalk. You may prefer to adjust the measurements for your class.

An actual Kī-o-Rahi field is much bigger and would need to be marked out on a playing field with cones or paint.

**Te Ao** diameter = 15 metres

**Pawero** diameter = 5 metres

**Te Wairua** diameter = 1 metre

**Te Roto** diameter = 10 metres

**Te Marama** diameter = 2 metres
