

Netball goals

In the first quarter of last Friday's netball game, Katie and Sarah **scored all the points** for the Gold team. Sarah scored $\frac{1}{4}$ of all the points. Katie scored 12 points.

How many **points** did the Gold team score?

In the second quarter of the game, Katie scored a fifth of the team's 20 points while again Sarah scored the rest.

How many **points** did Sarah score?
