

Open and Shut

You need: scissors and a photocopy of the nets copymaster

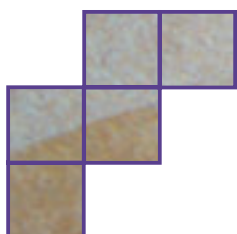

ACTIVITY

Kayleigh’s family is shifting house, and her mother has asked her to find as many open boxes as she can. When she goes to the garage, she finds a lot of boxes that have been opened out flat for storage.

1. The drawings show the flattened boxes. Predict which ones Kayleigh could make up into open boxes.
2. Cut out the nets on your copy of the copymaster, and then fold them. Compare what you get with the predictions you made.
