How to play:

- Take turns to play.
- When it's your turn, nominate the discount coupon you want to use and the game you want to buy.
- Estimate the discount (the amount to be taken off the game price) and find that discount amount on the board. (Round all prices to the nearest dollar.)
- If you find that the space is already occupied, you miss that turn. If not, put a counter on it.
- Check your answer. If you are wrong, take your counter off and miss that turn.
- When you both agree that the discount is correct, your classmate has a turn.
- The first player to get four correct discounts in a row (vertically, horizontally, or diagonally) wins the game.
