Rows of numbers

This **array of numbers** is built using the following pattern.

```
1
2   3
4   5   6
7   8   9   10
11  12  13  14  15
16  17  18  19  20  21
22 ...
```

Where would you find the following numbers? That is, in which row and which position/column in that row?

a. 37   b.61   c. 86.

Use your method to locate the number 1,387.
