

Shopping Around

ACTIVITY

Where necessary, each person below starts by rounding to the nearest 10 cents the cost of what they want to buy. Find easy ways to work out what they will pay.

1.

**$\frac{1}{4}$ off sale
Today only!**

These sunglasses are usually \$19.95. I'll buy them!

2.

**Drink bottles
\$2.95 each!**

I'll get 5 of these for the basketball team.

3.

**Buy 4 CDs @ \$14.95 each.
Get the 5th CD free!**

I'm going to buy 8 CDs and get 2 free!

4.

Hot dogs	\$1.30
Fish	\$1.80
Pāua fritters	\$1.50
Chips (scoop)	\$1.20

I'll have 5 hot dogs, 2 fish, 4 pāua fritters, and 2 scoops, please.

5.

6 children.
What will that cost?

Adults	\$11.00
Students	\$9.00
Children (school-age)	\$5.50

6.

I want 6 kilograms of bananas and 3 kilograms of apples.

**Apples
\$2.95 kg**

**Bananas
\$1.45 kg**
