Whānau Photo

1. Aka took a photo of her whānau at a recent mārena (wedding).

Tīmoti   Hema   Tungia with Ràta   Hotu   Manu   Paikea Whetù
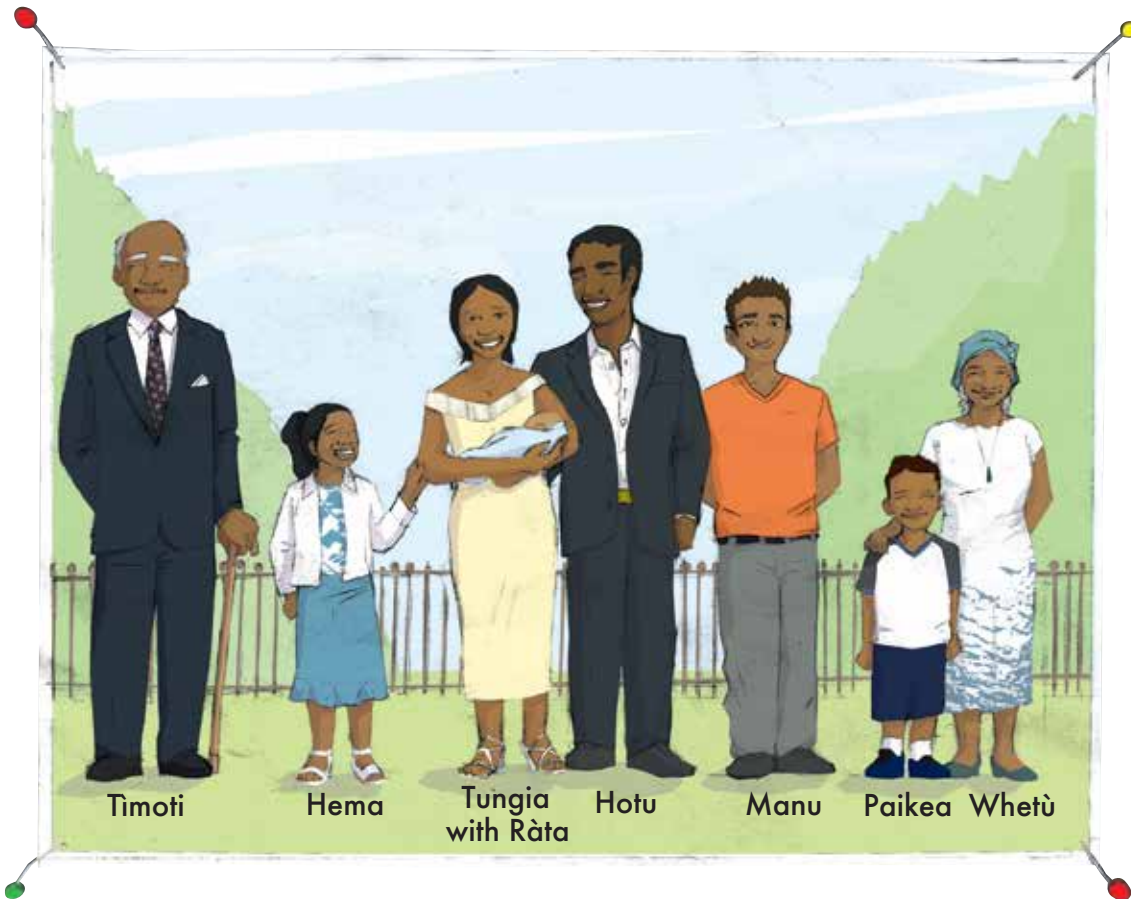

The graph below shows the heights of each whānau member plotted against their age.

Whànau Heights by Age
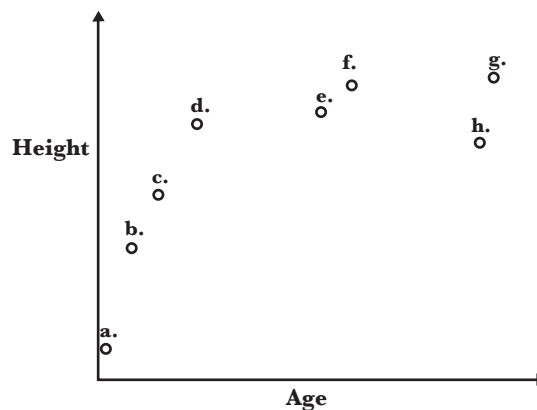

Who is represented by each point on the graph?

2. Aka is the eldest of the five children in Hotu and Tungia's family, but she is the same height as her grandmother Whetū. Aka's friend Ashley is the same age as Aka, but she is halfway between Tungia and Hotu in height.
Draw the graph above and plot the points for Aka and Ashley.
