

The Why and How of General Terms Copymaster 3.6: Geometry and the general term

The diagram is divided into three horizontal panels, each illustrating a geometric pattern of blocks and a corresponding sequence.

- Top Panel:** Shows a 3x3 arrangement of blocks (a 2x3 base with one block on top of the center) above a sequence of three blocks followed by an ellipsis and one block.
- Middle Panel:** Shows a 2x2 arrangement of blocks (a 2x1 base with one block on top of the left) above a sequence of two blocks followed by an ellipsis and one block.
- Bottom Panel:** Shows a 2x3 arrangement of blocks (a 2x2 base with one block on top of the center) above a sequence of two blocks followed by an ellipsis and two blocks. A bracket on the right side of the sequence is labeled "How many?".
