

Go on a Scavenger hunt!

1. Use a ruler to find out how long 50 cm is. Take a good look!
2. Find ten objects that you estimate to be 50cm long.
3. Record your objects on the table below.
4. Check your estimations using a ruler to measure the length of the objects accurately.

Object with estimated length 50 cm	Measured length

How accurate were your estimates?

Were your estimates too long or too short?

What would be a good way to try and remember how long 50cm is?
